Special Olympics Kansas Medical Directory

Spring 2016

MEDICAL DIRECTORY

Special Olympics Kansas is dedicated to empowering individuals with intellectual disabilities to become physically fit, productive and respected members of society through sports competitions, health and nutrition programs and leadership development. Offering year-round initiatives to children and adults with intellectual disabilities, Special Olympics Kansas is a platform for acceptance and inclusion as well as one of the largest advocates for healthy lifestyles in the state – regardless of race, religion, ethnicity or cultural differences.

The purpose of the Medical Directory is to help Special Olympics Kansas athletes and their family locate services which could help them in meeting their health needs. It is not an exhaustive listing of all the services available in Kansas. This is a simple directory that is intended as a guide to making first contact with the agencies and programs listed. Special Olympics does not necessarily endorse the agencies and programs listed in this guide.
