If you ever have a health-related question or concern, just call the nurse hotline. You can speak with a registered nurse anytime, day or night at no extra cost. It’s just one of many extra benefits you could get with UnitedHealthcare Dual Complete® LP1 (HMO-POS D-SNP).

Nurse hotline offers support to:
- Tell you about hundreds of health-related topics
- Guide you on self-care or where to go to get the care you need
- Talk about medications, how much to take, possible side effects and other safety issues

See if you can get this plan. Call today.
